Kann's—Fourth Floor.

SENATOR LEWIS MAKES MOVE TO END THE WAR

Introduces Resolution Calling on Wilson to Offer Services to Belligerents.

Senator James Hamilton Lewis yesterday introduced the following resolution looking to peace in Europe. "Be it resolved by the Senate of the United States, that the President is requested, unless to him such appears incompatible with the public interests of the United States, to suggest through proper channels, that the United States mediate between the combatants by tendering the proposition that the combatants at the earliest moment convenient to the situation in which they are placed, declare a truce, and either withdraw the armies from the field, or

hold the same in non-action, and in the meantime each of the countries engaged in the combat choose a neutral country as its representative, thus creating a Board of Arbitration made up of the chosen neutral countries. The said board to have a member for each of the countries engaged in the conflict, with the President of the United States, or a representative of such chosen by him, to serve as referee.

"Be it further resolved, that the said proposition is suggested by the Senate to the President of the United States as an expression of the desire of the United States for world peace, and not as any expression of favoritism or partiality to any one of the combatants, engaged at present in the European conflict."

Several German chemists are endeavoring to find economical processes for the recovery of combustible material from ashes.

The World's Finest Tea

"SALADA"

Tea out-rivals and out-sells all others, solely through its delicious flavour and down-right all-round goodness.

MEXICAN POLICY TO BE INDICTED

G. O. P. Platform Will Assail Wilson's Handling of Border Situation.

HUGHES BOOM WEAKENS

Justice May Oppose Some of Republican Planks. It Is Pointed Out at Capitol.

President Wilson's Mexican policy will be severely indicted in the Republican platform now in course of preparation. A forecast of the plank on Mexico obtained yesterday indicates that President Wilson will be assailed for refusing to recognize Gen. Huerta, Mexico's strongest man after Porfirio Diaz; will be condemned for committing the country to war against an individual, resulting in the Vera Cruz expedition for the avowed purpose of compelling Huerta to salute the American flag, which however, was not saluted.

This plank will assert the right of American citizens in foreign countries to the protection of the government, and will charge the administration with abandoning Americans in Mexico to every outrage.

A strong effort will be made to include in the platform a suffrage plank, but there is some opposition to pledging the party to secure a Federal amendment for it. There were signs yesterday that the Hughes movement is losing some of its congressional support. The criticism of Justice Hughes developed a new phase. It was declared at the Capitol that Republican leaders who had hoped to obtain from him an expression of his views on the major issues before the country today, particularly those which have arisen from the European war, are asking themselves how he would meet the attacks certain to be launched at him if he were nominated and then declared his opinions.

Only one man in Washington professes to know Justice Hughes's views on preparedness, which will be one of the most important planks in the Republican platform. This man says Justice Hughes declared to him that "Congress ought to hurry up the national defense legislation and pass a naval and military program worth while."

FIREMAN KILLED BY ENGINE IN LOCAL YARD

Body of Frank H. Barnes, of This City, Mangled on Track Near L Street.

While walking on the tracks in the Terminal train yard at 9th and L streets last night, fireman Frank H. Barnes was run down by a B. & O. engine and mangled to death. The engine was backing north toward the round house at the time and the crew did not see the accident. Conductor E. H. Day, crossing the tracks shortly after, found the body.

Barnes, who was 25, lived with his mother, Mrs. Margaret Barnes, at 509 E street northeast. He told fellow workmen just before the accident that he was going over to his engine. As he was crossing track No. 36 near L street northeast, Engine No. 5109, which had just brought in a train, passed. It is supposed that it came up on Barnes before he was aware what track it was on. Engine No. 5109 was in charge of Engineer B. E. Carey, 1746 South Charles street, and fireman W. O. Litchfield, 13 Robison street, both of Baltimore.

Mrs. Barnes was notified of her son's death. She had the body turned over to Harry V. Bosse, undertaker, 401 East Capitol street. Coroner Nevitt will hold an inquest over the body tomorrow morning.

MAY PLEAD FOR TEXAS MILITIAMEN

Baker Inclined to Recommend Clemency for Those Who Enlist Now.

TO BE TRIED, HOWEVER

Court-Martial Board Will Be Picked by Funston at Command of President.

In explaining his reason for deciding to try under the Dick law the 116 members of the Texas National Guard who refused to respond to call for service on the Mexican border, Secretary of War Baker yesterday dictated the following statement:

"The Dick bill provides as an offense the failure on the part of men of the National Guard to present themselves for muster when called upon by the President to do so. One hundred and sixteen members of the Texas National Guard are reported to have failed so to present themselves. Under the Dick law they would be guilty of failure to 'present' themselves for muster."

"When the pending legislation is approved and the militia of the States is reorganized and federalized thereunder, the obligation of the enlisted men of the National Guard will be to preserve the Constitutions of the United States and of their respective States and the lawful orders of the President and the governors of their respective States. Thereafter, when the President issues a call to the National Guard, the call will be to the National Guard into Federal service and it will no longer be necessary for the men to 'present' themselves for muster."

Secretary Baker's action of yesterday was unexpected, as he had announced on Wednesday that he would take no action in the matter until the Hay-Chamberlain bill had been approved by the President.

Concluding, Mr. Baker says: "I have decided to have the court-martial assembled by command of the President, and have asked Gen. Funston to recommend the members thereof. While I shall not prescribe it, I shall be inclined to recommend that the proceedings be abated in cases where the men are willing to present themselves and take the oath without further question."

SHE KILLS "MODEL HUSBAND"

But "Other Woman's" Views Differed from Those of Wife.

Chicago, May 25.—Oran Cox was a model husband and a devoted father, the widow says. Oran Cox was a be-trayer and an unnatural parent, declares "the other woman." Mrs. Rose Goldie Krogh, who settled her score today when she shot Cox dead just outside the door of his place of business.

"He refused to care for our child," Mrs. Krogh sobbed after the shooting. "He laughed at me and dared me to pull the trigger."

Mrs. Krogh made a written confession that she shot Cox because he refused to care for their 16-month-old child. Delegates Urged to Back T. R. New York, May 25.—George Von L. Meyer, chairman of the National Roosevelt Republican Committee, sent a letter today to every delegate to the Republican national convention, urging him to vote for the nomination of Col. Roosevelt.

BUSINESS MEN FAVOR DEFENSE

U. S. Chamber of Commerce Vote Shows Majority of 120 to 1.

WOULD TRAIN EVERYBODY

Class Bearing Brunt of Paying the Bills Deem Adequate Preparation Necessary.

Business men want preparedness. They have voted for it in a referendum of the Chamber of Commerce of the United States. A majority of 120 to 1 was recorded. Those who have a definite stake in the country and must bear a large share of the burden of paying the bill for national defense have come out squarely for a comprehensive scheme involving the entire military, industrial, and financial resources of the nation.

The referendum on national defense is of further interest because it has brought out the biggest vote ever recorded from commercial organizations, which make up the Chamber of Commerce of the United States. Forty-three States were represented, the District of Columbia, Alaska, Hawaii, the Philippines, and the American Chamber of Commerce in Paris.

The success of any general scheme of national defense, according to the referendum, to which the Chamber of Commerce of the United States is now committed, can only be realized under a system of universal military training.

It is the belief of the committee of the national chamber that the duties of every citizen mean equal obligations and that there can be no military organization in a great democracy which would be either desirable or safe, much less adequate, unless it laid down for all time the principle that equal rights mean equal obligations and that every citizen must not only be willing but also able and prepared to defend his country.

CHILDREN ATTRACT CAPACITY AUDIENCE

A musical comedy, acted entirely by children, some so small that they could hardly be seen across the footlights, was the novelty which caused the S. R. O. sign to be hung out at the Belasco Theatre last evening. The children were the pupils of Howard Lersey Holt and the comedy was entitled "The End of the Rainbow."

The dancing was chiefly of the modern ballroom and aesthetic variety, but Miss Doris Schlegel proved an apt pupil of the ballet, her dancing of Pavlova's "Dying Swan" being unusually successful.

Sam Thompson, the popular "Buddy" of Polka last week's production of "Back Home," added to the fame he achieved by his songs "Go On, Goodbye" and "When the Right Girl Comes Along." In the latter, he was ably assisted by "little peaches" in the person of Jewel Hawke, Adelaide Farrar, Doris Schlegel, Dorothy Mullen, Margaret Van Sant, and Thelma Parsley. Little Miss Parsley had already proved her stage presence by being in nowise disconcerted by the loss of a button in the dance following her song, "Saddle de Mooche," and Adelaide Farrar had scored a success by her recitation of "The Brave Hunter's Child." One of the smallest and at the same time the cleverest dancers was tiny Beatrice Coles the girl detective.

'SOUL UNION,' SHE SAYS, BROKE UP 2 FAMILIES

Philadelphia, May 25.—How two families were broken up by divorces because of a "soul union" was told today before Vice Chancellor Leaming, in Camden, by Mrs. Marie E. Ziesel, of Wildwood, seeking to force her former husband, Dr. William Ziesel, a dentist, of 19 North Franklin street, this city, to support their 12-year-old son Edward.

The present Mrs. Ziesel, whom Dr. Ziesel married after two divorces had paved the way in December, 1913, was the "soul mate" of her husband, Mrs. Ziesel No. 1 declared. She had been Mrs. Evelyn Irene Feden until her husband, J. Lytle Feden, divorced her at the same time Mrs. Ziesel divorced her husband, alleging "cruel and barbarous treatment." Then she was married to Dr. Ziesel.

"We had been friendly families until then had caused the divorces. With him one day in the summer of 1913," Mrs. Ziesel testified, "Mrs. Feden astonished me by telling me that she and my husband were soul mates and that they wanted divorces arranged so they could marry."

Time Table Changes. A general change in the time tables of the Pennsylvania Railroad will be made on May 28.

RENEWED YOUTH FOR CONSTIPATED OLD FOLKS

Inactive Livers Age People—How to Prevent This.

Everybody needs to take a good cathartic every once in a while to keep the liver active and the bowels open. After the age of thirty this is more than ever necessary. Failure to do this is what makes so many people dyspeptic and blue, and it is what makes crabbid old folks with wrinkled faces and yellow, leathery skins. Also it is at the bottom of many chronic stomach, liver, bowel and kidney troubles.

We advise everybody, and old folks in particular, to take this home treatment—an NR Tablet at night at the very first sign of constipation, indigestion or heartburn. It gives quick relief without pain or griping, and being a vegetable compound without calomel or habit-forming drugs, it is harmless as a lump of sugar. Do this every once in a while and you'll keep well. Nature's Remedy (NR Tablets) acts beneficially on the kidneys, corrects and tones up the stomach, aids digestion, makes the liver active and relieves rheumatism and constipation. Get a 25c box of NR Tablets—take one tonight and you'll feel better in the morning. Your money back if you want it.

INSTANT BUNION RELIEF

—and permanent cure. Over 1,000 cases cured last year—it really works wonders. "Bunion Comfort" instantly stops all inflammation and after layer, without any pain, until lo and behold, your bunion has disappeared. Buy a box today—at the drugist named below—he is authorized to let you use TWO PLAS-TERS FREE and if you are not satisfied, he will give you back your money. "Bunion Comfort" has worked wonders for others—they can serve you, too. It costs more than cheap pads and remedies—but they're worth many dollars to you for the real comfort they bring.

SPRING MEDICINE

Mr. J. F. Oerlet, Vienna, Va., says: "I have used it in my family for sixteen years, and found it even more than you claim for it in treating cases of chills or malarial fever. I have known in several instances three doses to stop chills, and one member of my family was cured of Malarial Fever by it when given up to die by physicians. I consider it has no equal."

Use ELIXIR BABEK

At this season of the year, after the stress and strain of a long, severe winter, everyone should take the Elixir Babek, not only as a spring tonic, but a preventative of Malaria, Chills, Fever, and Ague. Write to Kiozowski & Co., Washington, D. C., for list of testimonials.
